PAKISTAN JOURNAL OF SCIENTIFIC AND INDUSTRIAL RESEARCH

I. CONTENTS

(a) Volume 24, 1981

Physical Sciences Section

Further studies in the fresh latex of *Euphorbia tirucalli*.
Abdul Malik, Nighat Afza and Salimuzzaman Siddiqui 1

Determination of stability constants of copper complex with *o*-carboxyphenylhydrazodiethyl-malonate spectrophotometrically.
A.M. El-Atrash, B.A. El-Shetary, M.F. El-Shahat and W.H. Mahmoud 4

The absorption spectra of some 4(3H) quinazolinones.
M. Anwar 8

Design and calibration of the H_{10}-mode absorption cell for 10-cm wavelength band and the measurement of variation of absorbed power with temperature by water column of different lengths.
Mohammed Gazim uddin 14

Spectrophotometric determination of microquantities of Nitrite.
M. Sarwar, A. Rashid and Shaheen Wasti 18

Short Communication

The fatty acids of indigenous resources for possible industrial applications. Part-VI. Investigations of the species of solanaceae family.
Muhammad Salim, Din Muhammad, Manzoor Ahmad, Muhammad Yaqoob Raie, Shafiq Ahmad Khan and Muhammad Khurshid Bhatty 21

Biological Sciences Section

Effect of irradiation and storage on the cytokinins of edible mushroom's stipe.
M. Wahid 23

Effect of *Momordica charantia* linn. (Karela) on blood glucose level of normal and alloxan-diabetic rabbits.
Muhammad Amin Athar, Mohammad Yaqub and Mohammad Shoib Akhtar 27

Influence of different agroclimatic conditions on protein and trace element contents in triticales.
Abdus Sattar, A. Shakoor, M.S. Sadiq, M.A. Chaudry and M.A. Kausar 31

Short Communication

Influence of iron on the dry matter yield and mineral content of maize plant.
S. Manzoor Alam 35

Technology Section

The recovery and evaluation of mango stone kernel fat.
M.Y. Raie, Manzoor Ahmad, S.A. Khan and M.K. Bhatty 37

Utilisation of pine needles: Part I. Extraction of pine fibres and their physical and chemical characteristics.
Mumtaz Ahmad Khan and Taufeeq Khan 41

Book Notices 47

Physical Sciences Section

Some new organic reagents for copper and iron
M.Y. Khuhawar and W.I. Stephen 49

A preliminary study of jute-pulp paper as a dielectric medium in capacitors
S.M.A. Tirmizi and M. Ashraf Chaudhry 53

Distribution studies of some metal ions in chloride media
E.A. Hassan, J.Y. Salama, M.F. El-Hadi, F.H. Kamal and A.S. Abo El-Magd 56

Determination of small amounts of silicon in steel drillings using X-ray fluorescence technique
M. Khalid and Per Jennishe 66

On equinoctial anomaly in N_mF2 during high solar activity
Tariq Majeed 69

Short Communications

Determination of two spiro non-steroidal oestrogen potentiating agents using high-performance liquid chromatography with electrochemical detection
T.U. Qazi and G.A. Qureshi 71

Dielectric and dipolar interaction studies of a non-polar solvent induced infra-red frequency shifts
Noor Ahmad and Nasim Rehana 72

Biological Sciences Section

The pupal and pre-pupal stages of the male Sind lac-insect
(Miss) Nur-un-Nisa Qadri and S. Mahdihassan 74

Organisms of public health significance in fish and shrimp from Karachi coastal waters – a survey
Rabia Zuberi and R.B. Qadri 77

Technology Section

Fatty acids from hydrocarbons. Part I. Oxidation of paraffin wax from National Refinery (Ltd) Karachi
M.Saleem, M. Yamin, Naeem Shakir, S.A. Khan and M.K. Bhatty 82

Comparative studies of solar dehydrators
B.A. Mahmood, W.H. Shah and F.H. Shah 85

Short Communication

Comparison of dissolution rates of different commercial aspirin tablets
Samina Ayub and S. Ayub Ali 89

Book Notices 90

Physical Sciences Section

N-Allyl and N-alkyl derivatives of mono-nor-bases of conessine series
Salimuzzaman Siddiqui and Bina S. Siddiqui 91

An estimate of total solar radiations at Karachi
Firoz Ahmad, S.A. Husain, S.M.M.R. Naqvi and M. Wasim Akhtar 95

Reaction of hydrazine hydrate with substituted hydantoins
S.R.F. Kagaruki, M.R. Khan and H. Wevers 99

The use of nucleoside and polynucleotide analogs in antiviral chemotherapy
M. Khurshid Alam Khan 101

Biological Sciences Section

Juvenile hormone activity of four phosphonium compounds in *Aedes aegypti* (L.) larvae
Saleem A. Qureshi, S. Mohiuddin and Y. Badar 105

Short Communication

Survey of phytoplankton and selection of resistant varieties around Sind area
Phool Begum Zahid and Tajwar Sultana 109

Technology Section

Effect of sodium hydroxide and aqueous ammonia on the *in vivo* digestibility of wheat straw
F.H. Shah, Zia-ur-Rehman, A.D. Khan and Tahira Firdos 111

Calculation on material balance of SSP manufacture
Muhammad Ishaque, Ishtiaq Ahmed and Nazir Ahmed Naseem 116

Utilization of rice husk ash for the production of cement – like materials in rural area
R.A. Shah, A.H. Khan, M.A. Chaudhry and M.A.Qaiser 121

Short Communication

Physico-chemical characteristics and fatty acid composition of groundnut oil
M.Y. Raie and Manzoor Ahmed 125

Book Notices 126

Physical Sciences Section

The microenvironment and kinetics of human erythrocyte acetyl cholinesterase
S. F. Mabood 127

Synthesis of 2-pyrazolin-5-ones, 3-pyrazolin-5-ones and 3, 5-pyrazolidinedione derivatives
Mohamed Abbas Metwally and Fathy A. Amer 135

Short Communication

An anomalous behaviour of foF2 at Karachi
Tariq Majeed 138

Biological Sciences Section

Sooty mold on mango plants and its relationship with leafhoppers and climatic factors in Karachi-Pakistan during 1978-79
Mubarik Ahmed, Manzoor Ahmed, M. A. Baluch and Rukhasana Naheed 140

A simplified technique for mass culture of unicellulor algae
Phool Begum Zahid, Tajwar Sultana and Wajid Hussain 145

Short Communication

Ecological notes on a few hymenoptera associated with lac
S. Mahdihassan 148

Technology Section

Recovery of metallic copper from leach solutions. Part II
K. Hussain 151

Recycling of crop residue and animal waste as feed stuff
F. H. Shah, A. D. Khan, and Imtiaz Ahmed 157

The influence of water vapour on the converison of α-TO γ-Fe_2O_3
W. Weisweiler and Q. Iqbal 160

Chlorination of Ziarat laterite – A preliminary investigation
R. A. Shah, M. Amin and F. M. Zafar 163

Physical Sciences Section

Isolation and structure of holarricine – A new alkaloid from the seeds of *Holarrhena antidysenterica* Linn
Salimuzzaman Siddiqui and Bina S. Siddiqui 167

Characteristic distribution of total direct and diffuse solar radiations at Karachi, Pakistan
Firoz Ahmad, S. A. Hussain, S.M.M.R. Naqvi and M. Wasim Akhtar 171

Characterisation of Nagar Parker clay
M. Yusaf, M. Hanif, M. Iqbal, M. A. Mian and A. R. Qureshi 175

Spectrophotometric determination of sodium azide. Part I. Indirect colorimetry
Aftab Beg Chughtai, Bushra Asghar, Shafiq Ahmad Khan and M. K. Bhatty 182

Synthesis and spectroscopic studies of 2-arylimino-4, 6-diphenylpyrans and their isomeric 2-pyridones
Amir Sultan Afridi 185

Biological Sciences Section

Interaction of starvation and gamma radiation on the fecundity of *Tribolium castaneum* (Herbst) Coleoptera: Tenebrionidae
Sana Ullah Khan Khattak and Mohammad Shafique 189

Effects of iron and manganese on the growth and nutrient contents of rice plants, grown under flooded and unflooded conditions
S.M. Alam 192

Technology Section

Turpentine oil-based chemicals. Part III. Polymerisation of 3-carene and α-pinene
A. Sattar, M. Javaid Iqbal, K.M. Janjua, S. A. Khan and M. K. Bhatty 195

Improvement in the digestibility of rice straw by alkali treatment
F. H. Shah, Zia-ur-Rehman, A. Majid and A. D. Khan 199

Effect of chemical treatments on the stability of dehydrated carrot
A. K. Baloch, K. A. Buckle and R. A. Edwards 203

Book Notices 212
